College: Southeastern Technical College
Reporting Year: 2024

Non-Graduate Leavers	Graduates	Graduates Plus Non-Grad Leavers	Graduation Rate
300	1,570	1,870	84.0%

Graduation Rate $\quad = \quad \dfrac{\text{Graduates}}{\text{Graduates + Non-Graduate Leavers*}}$

* Non-Graduate Leaver: during the two year period took 12 or more hours and did not graduate. The last term enrolled during the two year period, student was not a special admit, not student type Transient, the primary major was in a program major (not DV00, IA00, SP00 or TR00), student had enrolled in at least one vocational course that was not subject 'SCT' and not 'COMP', and the student was not enrolled at that college both Spring Semester and Summer Semester of the second year.

Each student is reported as a Leaver exactly once, based on their home campus and major the last term enrolled during the two-year period.

Each student is reported as a Graduate exactly once at the college level, once for each campus (so if a student received an award at more than once campus, he or she is counted once for each of those campuses), and once for each major (students are counted once for each award they received).   So a sum of graduates by campus, or a count of graduates from the student details, will be more than the college's unduplicated total.
