ENVIRONMENTAL TECHNOLOGIES PROGRAMS

Fish & Wildlife Management and Forest Technology

LIVE WORK PLAN

March 2012
ALL WORK IS PERFORMED BY STUDENTS AND SUPERVISED BY INSTRUCTOR

Live Work: includes performing a service for landowner which includes written assessments and recommendations.

General:
- All patrons must sign a Live Work Request Form. Neither the College nor the student is responsible for damages to any equipment or property due to fire, theft, or other causes.

Procedures:
- All students who perform live work are scheduled by the program instructor.
- The instructor assigns work requests to students in accordance with the skills each student currently possesses.
- Every attempt is made to insure the student receives a variety of live work assignments as well as mandated skills training.
- All work being performed by students is under supervision of an instructor.

Safety Precautions:
- Students are required to wear appropriate personal protective equipment while performing services.
- Students must follow all safety rules as set forth by TCSG, and Southeastern Technical College.

Charges for Services:
- Patrons are not charged a service fee.

Materials Charges:
- Patrons may be responsible for supplying seeds, fertilizers, chemicals, etc… for students to perform food plot plantings, pond water/weed treatments or forestry related activities.
