On behalf of the faculty, staff, directors, trustees and students of Southeastern Technical College, I am proud to present our 2007 Annual Report.

This has been another remarkable year for our college. We have broken ground, empowered people and inspired learning throughout our community. In this report, you will read about growth, accomplishments, awards, new programs and technological advancements for our institution.

Education is about creating new possibilities for career and personal growth. Southeastern Technical College is preparing our students for tomorrow’s challenges everyday, and our graduates are filling the needs of our community’s workforce demands.

Please join me in celebrating Southeastern Tech’s 2007 accomplishments.

Sincerely,

Cathryn T. Meehan, Ed.D.
President
Mission Statement
Southeastern Technical College is a public, two-year institution that provides accessible, quality educational programs and services designed to enhance the ability of our students to participate in Georgia’s economic development.

To accomplish our purpose we provide graduates with the knowledge, skills, and abilities necessary to obtain employment; offer a curriculum which encourages students to develop career, personal, and work ethics values; sponsor co-curricular activities to assist students in the development of leadership, scholarship, and fellowship traits; conduct continuing education and training to allow employed employees to acquire and maintain advanced levels of competency; provide information literacy skills; and facilitate public adult education programs to improve general population and workforce literacy levels.

STE Accomplishments
- Offered a total of 78 associate degree, diploma, and certificate programs.
- Began construction on the Health Sciences Annex.
- Dental Hygiene program received initial accreditation by Commission on Dental Accreditation (CODA).
- Economic Development Center utilized $10,000 One Georgia Grant to offer effective marketing training to 22 small businesses in the service area.
- Medical Assisting program received 10-year accreditation from Commission on Accreditation of Allied Health Education Programs (CAAHEP).
- Graduates received exceptional pass rates on state/national licensure or certification exams:
  - Certified Nurse Aide: 100%
  - Commercial Truck Driving: 100%
  - Cosmetology: 100%
  - Practical Nursing: 100%
  - Radiologic Technology: 100%
- In 2007, 98% of our students found job placement after program completion.
- In 2007, 86% of our students found job placement in their field of study after program completion.

Student Information
- Development: 141 Students
- Graduates: 164 Students

Financial Aid:
- Students who received Pell Grant: 720
- Students who received HOPE: 1,463

PELL total: $993,400.01
HOPE total: $1,656,169.33

A Letter From the President
On behalf of the faculty, staff, directors, trustees and students of Southeastern Technical College, I am proud to present our 2007 Annual Report.

This has been another remarkable year for our college. We have broken ground, empowered people and inspired learning throughout our community. In this report, you will read about growth, accomplishments, awards, new programs and technological advancements for our institution.

Education is about creating new possibilities for career and personal growth. Southeastern Technical College is preparing our students for tomorrow’s challenges everyday, and our graduates are filling the needs of our community’s workforce demands.

Please join me in celebrating Southeastern Tech’s 2007 accomplishments.

Sincerely,
Cathryn T. Meehan, Ed.D.

STC Foundation Campaign 2007
Foundation Mission Statement
Our mission shall be to promote the cause of technical and adult education at Southeastern Technical College by acquiring and administering monetary gifts, grants, and other funds and properties principally from area industries, businesses, individuals, and other organizations as well as faculty, staff, and friends of Southeastern Technical College. Furthermore, our mission shall be to partner with donors to invest in Southeastern Technical College to build stronger communities and a better Georgia.

What Are the Needs?
Establish a Registered Nursing Program - A recent needs assessment reported openings for 613 RNs within a 50-mile radius from 2007 to 2016. Funds to staff an RN program are needed.

Supplement Adult Literacy Funding - The Adult Literacy program serves students who need their GED, English as a Second Language classes, or literacy classes. In the 1990 U.S. Census, over 40% of the population in Montgomery, Tattnall, and Toombs had no high school diploma or GED. Additional funding is needed to operate this program.

Commitment to the Local Arts through the Auditoriums - The STC auditoriums provide venues for the arts and community activities, which have a positive impact on the local economy. However, the expenses of the auditoriums exceed the revenue. Also, the auditoriums are in need of a renovation.

Partnership with K-12 School Systems - Southeastern Tech would utilize funding to create a unique learning model, often called a career academy or charter school, and these students could be awarded post-secondary diplomas/degrees as well as their high school diploma.

Allorahen and Expand High Technology Fields - In technology fields, equipment upgrades are constantly needed. State funding is not always available for upgrades. Foundation support is a must.

Create an Academic Scholarship Program - Even though the HOPE Grant is in place, need still arises for emergency scholarships for our students.
