GENERAL INFORMATION

Introduction

The Institutional Effectiveness Division is pleased to present the **2017 Southeastern Technical College (STC) *Fact Book***.

This book is intended as a single, readily accessible, consistent source of information about Southeastern Technical College. It is a summary of institutional data compiled to capture the 2017 fiscal/academic year. The Fact Book provides pertinent facts and figures valuable to administrators, faculty, students, and the public.

An aspiration of this process is to make available increasingly more useful information on an annual basis. To help in accomplishing this, we welcome your comments and suggestions for the Fact Book.

History

During the 1987 session, the Georgia Legislature appropriated $45,000 for the preliminary plans for a technical institute to be located in Southeast Georgia. During the 1988 session, an additional appropriation of $5,410,000 was approved for the construction of the new institute. Other state funds totaling $445,000 were added to the project. Additionally, the citizens of Toombs County, through a local option sales tax, contributed $1,689,000 to the project for the construction of a 776-seat auditorium. The total funds invested in the project amounted to $7,553,000.

Construction of Southeastern Technical Institute began in 1988. A local Board of Directors was sworn into office in July 1989. By November 1989, the Southeastern Technical Institute Foundation was incorporated. Although the facilities were still under construction, the first diploma program, Practical Nursing began in January 1990. Upon completion of construction in 1990, a dedication ceremony was held. Governor Joe Frank Harris delivered the dedicatory address.

October 1, 1990, marked the official opening of the new facility. Forty-six students enrolled in four diploma programs: Practical Nursing, Information and Office Technology, Accounting, and Cosmetology. An additional 32 students enrolled in Developmental Studies. In March 1991, nine Practical Nursing students graduated in Southeastern Tech's first commencement exercise. The institute remained constant in adding more programs to respond to the needs of the community.

In 1992, Southeastern Tech established a campus in Glennville. After having leased facilities in Glennville for a number of years, on June 14, 1994 the City of Glennville gave Southeastern Tech three buildings and the land the campus buildings are situated. Also of significance to the Glennville Campus was the award of a Community Block Development Grant to Tattnall County for the construction of a Technology Center. This facility is located on property adjacent to the Glennville campus and is utilized by Southeastern Technical College for adult literacy training, continuing education, and business and industry training.

On February 5, 1998, the State Board of the Technical College System of Georgia authorized the purchase of a building located in Vidalia to be used as the College's Economic Development Center. The building had been leased by Southeastern Technical College since 1994. Renovation of this facility was completed in October 2002. The facility also houses regional operations for the Technical College System of Georgia's Quick Start program, an organization which serves the training needs of new and expanding industries.

In 2000, the school had a 43% increase in enrollment over 1999 and a 257% increase in the continuing education department in two years. Beyond growth was the tremendous positive effect the institution has experienced through the development of a more technically skilled workforce.

On December 7, 2000, Southeastern Technical Institute officially changed its name to Southeastern Technical College. The name change was a facet of Governor Roy Barnes' Education Reform Bill. This also allowed STC to offer associate degrees and receive formula-funding based on enrollment from the State of Georgia.

Southeastern Technical College celebrated ten years of service to Toombs, Tattnall, and Montgomery counties while promoting the theme, "A Decade of Difference." Southeastern Technical College continued to increase enrollment and add new programs.

In 2001, the Toombs County Development Authority conveyed 15.92 acres of land in the Toombs County Industrial Park to Southeastern Technical College for the purpose of establishing a Commercial Truck Driving facility. The Commercial Truck Driving Facility was completed in June 2003.

A landmark occasion for adult literacy efforts occurred in September 2001 with the opening of the Reidsville-Tattnall County Adult Literacy Center. The facility, funded by a Community Development Block Grant (CDBG), provided a permanent home for adult literacy programs and services in Reidsville.

Construction began in November 2001 on the Medical Technology Building on the main campus. Due to unprecedented enrollment growth, funds were appropriated to construct an addition to this project.

In FY 2001, Southeastern Technical College served over 1900 students in credit programs alone. The College grew to more than 50 programs in business, health, technical and industrial fields. Online classes became available at Southeastern Technical College through the Georgia Virtual Technical Connection. Barriers of time and distance diminished as obstacles that could hinder students from receiving the education they desire and deserve.

Following the success in establishing a permanent home for adult literacy programs and services in Reidsville was the establishment of the Montgomery County Adult Literacy Center in Mt. Vernon. The construction of this facility was also established through a CDGB to Montgomery County. The Center opened in June 2002.

During FY 2002, the College had a major impact on the community as literacy classes were now able to be offered at four different sites. As previously stated, construction began on the regional medical technology building; construction started on the Glennville Campus renovations; STC added additional parking on the Vidalia campus, as well as completed the final phases for the new Economic Development Center in Vidalia.

Southeastern Technical College has experienced phenomenal growth during its relatively brief existence. Space constraints on the Vidalia campus were alleviated in January 2004 with the official opening of the Medical Technology Building.

The hallmark of the success of Southeastern Technical College is the strong local support from its service area. This modern facility stands as a finely sculptured monument to the economic growth and development of the entire region. Adult students, regardless of sex, race, age, color, religion, national origin, marital status, academic or economic disadvantage or disability may capitalize on the enhanced opportunities offered by technical education. Technical education has clearly become a desirable, attractive alternative for education for the citizens of Georgia.

In January 2008, Commissioner Ron Jackson of the Technical College System of Georgia charged a taskforce to measure the feasibility of merging two technical colleges as the first of several mergers across the state. In August 2008, a plan to merge the first two colleges was approved. At its September 2008 meeting, the State Board of Technical and Adult Education

determined that merger strategies were necessary throughout the state and gave approval to proceed with the mergers proposed by the Technical College System of Georgia. Commissioner Jackson met with the Local Boards of Southeastern Technical College and Swainsboro Technical College to discuss their role during the merger process. Dr. Ray Perren, Assistant Commissioner of the TCSG, met with the college presidents to prioritize and outline the tasks before them. Southeastern and Swainsboro formed a combined Steering Committee of senior staff from both colleges to lead and manage the merger process.

Southeastern Technical College and Swainsboro Technical College had a close working relationship since the opening of Southeastern Tech in 1990. In fact, Southeastern Tech was formed from Swainsboro Tech's service delivery area. The colleges were located only 32 miles apart; therefore, they often had transient students from one another and shared many of the same community supporters, business partnerships and resources. They provided more than 15 similar programs, with many of the programs using the same books and instructional materials. The merger benefits the communities served by creating a strong, single presence with increased visibility, and a unified mission. The merged college better utilizes limited resources to be more responsive to the needs of business and industry. More efficient resource utilization allows current programs to be expanded and frees up resources to add new programs as needed in our continually changing economy. As one educational entity in the communities, the merged college better serves the communities with stronger partnerships, decreased competition for resources and fundraising, elimination of duplication, and more visibility as a stronger institution. A merged institution further enhances the programs and services provided to all communities served and broadens the opportunities in many areas.

On July 1, 2009, Swainsboro Technical College and Southeastern Technical College officially merged to form the new Southeastern Technical College, which serves Candler, Emanuel, Jenkins, Johnson, Montgomery, Tattnall, Toombs, and Treutlen counties. The Board of Trustees of the Commission on Colleges continued accreditation following review of the consolidation/merger. Southeastern Technical College was initially accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) in 2009. Prior to this date, both former colleges were accredited by SACSCOC from 2008 to 2009.

In FY/AY 2012, Southeastern Technical College, a unit of the Technical College System of Georgia, successfully converted from the Quarter System to the Semester System.

In June 2013, Southeastern Technical College's accreditation was reaffirmed by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) with the next reaffirmation of accreditation review scheduled for 2023.

AY 2014 presented Southeastern Technical College with its tightest budget in its history. The STC Foundation developed and implemented the first R.I.D.E. Campaign. STC became an Achieving the Dream College. STC Swainsboro Campus celebrated its 50th Anniversary. The Health Sciences Building construction began on the Swainsboro Campus. The Vidalia Campus Economic Development Center was revamped to include the Health Science West Annex. STC accepted its first class for the Associate of Science in Nursing. The class is slated to graduate December 2015.

In AY 2015, the Southern Association of Colleges and Schools Commission on Colleges Board of Trustees continued accreditation following review of a program expansion to include the Associate of Science in Nursing program. STC's President of 18 years, Dr. Cathryn T.

Mitchell, retired and William L. Calhoun was selected as the new President to lead the College. A new Health Sciences building opened on the Swainsboro Campus. The Vidalia Campus celebrated 25 years of technical education.

In AY 2016, Southeastern Technical College was named the TCSG College of the Year. In addition, STC was selected as Best Two Year College in Georgia by the Best Colleges organization as well as the number one Technical College in Georgia by James Magazine. STC graduated its first Associate of Science in Nursing class. STC established a Commercial Truck Driving License training range through an agreement with the Emanuel County Development Authority.

In AY 2017, Southeastern Technical College started a Basic Computer Numeric Controller TCC in response to local industry needs. STC also began the PN to ASN Bridge program on the STC Swainsboro Campus.
