Strategic Plan 2010-2014
FY 2012 Update
Foreword
from the President

“The result of planning should be effective, efficient, and economical… that is, suitable for the intended purpose, capable of producing the desired results, and involving the least investment of resources.”
-- Clark Crouch

Southeastern Technical College monitors changes occurring due to internal and external factors affecting the College in order to improve services and processes. To ensure the strategic plan remains up-to-date, the College reports major changes to the Strategic Plan in an annual update.

This strategic plan is in alignment with the Strategic Plan of the Technical College System of Georgia (TCSG) and consists of Strategic Goals (4) with Strategic Objectives (16). The institutional Goals and Objectives included in the College’s Strategic Plan are reviewed annually and revised as needed. Progress toward the accomplishment of these goals and objectives is documented annually. Strategic planning and assessment processes integrate with the annual planning and assessment processes of our College.

Southeastern Technical College is proud to present this FY 2012 update of the strategic plan for the years 2010 through 2014. Although this period offers many challenges, it also provides significant opportunities for the College. These opportunities will amplify our ability to achieve the strategic goals and objectives outlined in this updated plan.
